CONSTANT YIELD TAX RATE 2016

This is a summary of the constant yield tax rate certification (CYTR) sheets that were mailed to local governments on Tuesday, February 16, 2016. The constant yield tax rate is the tax rate that a jurisdiction would have to impose in order to obtain the same amount of property tax revenue in fiscal year 2017 as it received in fiscal year 2016. If a jurisdiction plans to set a tax rate higher than the constant yield rate, the jurisdiction must advertise the tax increase and hold a public hearing before setting the tax rate for fiscal 2017. Municipalities are exempt from these requirements if maintaining the same tax rate would raise less than \$25,000 more revenue in fiscal 2017 than in fiscal 2016. In some parts of some counties, there may be additional taxes levied for special purposes. These tax levies are not included in these tax rates.
