MARYLAND DEPARTMENT OF ASSESSMENTS AND TAXATION SIXTY-NINTH REPORT

MADE TO THE GOVERNOR AND GENERAL ASSEMBLY FISCAL YEAR 2013

State of Maryland

DEPARTMENT OF ASSESSMENTS AND TAXATION

MARTIN O'MALLEY
Governor

ROBERT E. YOUNG Director

Office of the Director

The Honorable Martin O'Malley and
The General Assembly of Maryland

The agency herewith respectfully submits the Sixty-Ninth Annual Report of the Department of Assessments and Taxation. The report contains data for the 2013 Fiscal Year on the numerous laws and programs it administers on behalf of the citizens of the State of Maryland.

This report provides significant amounts of statistical data in tabular form as well as written descriptions to provide the public we serve a greater understanding of the work performed by the Department. The access to the extensive information the Department provides in person and via the Internet on real and personal property assessments and business document filings has produced greater public awareness and confidence in the work product produced.

For a January 1, 2013 assessment date of finality, the agency mailed 678,763 Assessment Notices to one-third of the property owners in the 24 subdivisions of the State. For residential property owners statewide, property values decreased from the three prior years by 7%, which compares favorably to a 17% average assessment decrease in the group of properties reassessed last year.

The Supervisors of Assessments, the Program Managers and I are committed to providing Maryland property owners and businesses prompt, courteous, and efficient service every day of the week. We appreciate receiving any comments or suggestions you may have to enhance that level of service.

Sincerely,

Robert E. Young

Director

GENERAL DUTIES AND POWERS OF THE STATE DEPARTMENT OF ASSESSMENTS AND TAXATION

The State Department of Assessments and Taxation was established in 1959 and was assigned the administrative functions formerly given to the State Tax Commission. The Department has broad responsibilities including (1) supervision of the real and personal property tax structure of the State, (2) creation and maintenance of State records that establish corporations and other business entities, (3) administration of property exemptions and State property tax credit programs, and (4) publication of statistics and reports.

OFFICE OF THE DIRECTOR

The Office of the Director performs functions necessary for the management of the entire agency including the Director's staff, Finance/Accounting, Equal Employment Opportunity, Human Resources, and the Office of Attorney General. The Director's Special Assistant compiles statistics and reports, monitors assessment levels, and assists the Director in agency management.

The Human Resources Section is responsible for recruitment, position classification, salary administration, employer-employee relations, health benefits, retirement, workers' compensation, unemployment insurance, collective bargaining, teleworking, tuition reimbursement, training, and timekeeping.

The Equal Employment Opportunity Officer monitors personnel actions, investigates EEO complaints and provides employee assistance services and insures ADA compliance. The Office of Attorney General provides advice to program managers on legal matters and represents the Department in litigation.

REAL PROPERTY VALUATION DIVISION

The Real Property Valuation Division functions under the specific provisions of the Tax-Property Article of the Maryland Annotated Code and is responsible for performing real property assessments of residential, commercial, industrial, and agricultural properties throughout the State. The valuation of property is professionally conducted by assessors working in 23 counties and Baltimore City. Real property assessing is based on a three-year cycle in which one-third of all real property is reviewed every year.

Assessment notices were mailed for the January 1, 2013 assessment date of finality in December 2012 to 678,763 property owners throughout Maryland which reflected a change in real estate values across the State for the past three years. This group of properties was last valued in 2010. Over the past three years, residential property values in this group have experienced a decline in value with 77% of them decreasing. On average, the residential values in this group being reassessed decreased by 7%, while commercial property values showed a decrease in 13 of 24 subdivisions but an overall average increase of 11% statewide.

Assessments are based upon estimates of the market value of real property, including vacant and improved land. In addition to monitoring and analyzing all real estate sales in Maryland, assessors use the Maryland Assessment Manual to estimate the replacement cost values of various types of real property improvements. Commercial and Industrial Assessors also utilize the capitalization of net income in the valuation of income producing properties. The Real Property Assessment Procedures Manual, the Code of Maryland Regulations, and commercially produced references are also used in the property valuation process. The Department's computer assisted mass appraisal system, now called the Assessment and Administration Valuation System (AAVS), is used to improve data research, retrieval, and valuation computations. Assessment values are furnished to each county and municipality for tax billing purposes.

Maryland law provides for a three-level administrative appeal process: the Supervisor's Level Hearing, the Property Tax Assessment Appeals Board, and the Maryland Tax Court. During FY 2013, there were 18,654 Supervisor's Level Hearings. In comparison, in FY 2012, there were 21,472 Supervisor's Level Hearings.

The foundation of fair property taxation is uniform and accurate assessments. The Department has adopted national standards for measuring property assessment quality as outlined by the International Association of Assessing Officers. Maryland has excellent assessment uniformity. To ensure the accuracy of assessments, the Department makes an annual assessment ratio survey by comparing actual sales with assessment levels in the various subdivisions. This survey also determines how well our local assessment offices are keeping pace with current property values.

The Department is committed to providing the citizens of Maryland with outstanding service. In order to obtain input from the public, an ongoing survey titled "PLEASE RATE OUR PERFORMANCE" is used. The survey brochures are prominently displayed in each office and are personally provided to first-level appellants. The survey results indicate an extremely high degree of satisfaction for courtesy and professionalism.

The Department continually strives to make the format of the reassessment notice more understandable to the property owner. The "impact" statement and explanation of the Homestead Credit was color enhanced. This will allow property owners to more easily understand the assessment amount that will be the basis of their property tax bill. Additionally, property owners who receive a reassessment notice can now be mailed their property worksheet and sales analysis via an internet request without appealing.

The AAVS data system continues to make further refinements and enhancements each year. This system combines our existing administrative and valuation processes into one relational database system. The new system provides enhanced functionality to the valuation, administrative, and analysis applications.

It is important to the Department that property owners are informed on all assessments programs, credits, and processes. To insure accomplishing this objective, informational brochures are continuously maintained. The brochures are available on the internet website or from any local assessment office.

TAXPAYER SERVICES DIVISION

Charter Services:

The Department's Charter Unit in Baltimore is the centralized filing location for forming a new business entity or to register a "foreign" (out-of-state) entity doing regular business in the State. The unit reviews all formation filings for legal sufficiency and maintains those records for the State's central registry system.

This unit also is charged with the responsibility for providing numerous other business services and collecting significant filing fees. The services provided include the maintenance of resident agent reporting for service of process; the service of process itself for certain special entities; website "good standing" certificates widely used in financings, settlements, and licensing; and the issuance of certified copies of all documents on file with the Department.

Another section within this unit has the responsibility for processing and displaying on the agency's website all Uniform Commercial Code (UCC) financing statements. The Unit receives approximately 60,000 of these filings each year.

The collection of statutory fees mandated by the General Assembly results in substantial revenue to the State. These fees include a \$300 Annual Report fee from all for-profit business entities; the organization and capitalization fees paid by all corporations being formed; and the fees for filing formation documents for corporations, limited liability companies, limited liability partnerships, and business trusts.

This unit also processes "ground rent" redemptions where homeowners can redeem the ground rents on their residences when the ground rent holder can no longer be contacted. It also maintains an active "registry" of approximately 86,000 ground rent owners.

The Department dedicates a substantial portion of its website for providing other information to these businesses, service companies and the general public online. There are fill-in the blank forms for creating each type of business entity along with written instructions. "Certificates of Status" for all business entities on file with the Department are available 24 hours a day, 7 days a week on the website.

One of the more widely used features of the Department's website is the Charter and UCC document imaging system. Within 48 hours after a business entity formation document or a UCC financing statement is processed by the Department, an image of the actual document filed is accessible for anyone to see via the agency's website.

Table VIII provides a summary of the number and type of documents processed by the Department for fiscal years 2011, 2012, and 2013. Table IX lists the substantial revenues the agency collects and deposits into the State General Fund.

Business Personal Property Valuation:

This unit is responsible for the valuation of taxable personal property owned by business entities throughout the state. A Maryland personal property report (Form 1) must be filed by all businesses that are incorporated, qualified or registered to do business in the State of Maryland as of January 1. This includes corporations, limited liability partnerships, limited liability companies, limited partnerships, business trusts, and real estate investment trusts. The filing fee for the privilege of maintaining a legal entity's existence in Maryland is \$300 for most businesses. Additionally, general partnerships and sole proprietors that own taxable personal property are also required to file reports.

The unit must review and determine if personal property owned by certain organizations, including religious groups, government, non-profit educational institutions, non-profit charitable organizations, non-profit hospitals, and certain other organizations or groups meet certain "strict use" criteria allowing its property to be fully exempt throughout Maryland from any assessment or taxation. Table X lists specific exemptions also allowed by local government for commercial inventory, manufacturing inventory and manufacturing/research and development equipment. For fiscal year ending June 30, 2013, there were 286,218 personal property reports filed which generated \$352 million in local government tax revenues. In comparison, for fiscal year ending June 30, 2012, there were 277,500 personal property reports filed generating \$365 million in local government tax revenue.

The unit's assessors apply generally accepted accounting principles to determine an entity's assessed value. Notices reflecting personal property values are mailed to the businesses and those values are certified to the respective county and/or municipal government to calculate and issue tax bills. Generally businesses may file amended returns to correct reporting errors or claim missed exemptions within three years of the date that the return was originally due.

All personal property assessments, information and figures reported on the personal property report, accompanying schedules and related documents are subject to audit. The unit contains an audit section that is responsible for conducting internal and external audits.

The personal property pages on the Department's website are heavily utilized by tax practitioners, legal entities and sole proprietorships providing important tax report filing instructions, forms and contact information. This unit maintains an easy to use and highly accurate personal property report extension system that is extensively used by accountants, tax representatives, and members of the general public to request a filing extension until June 15 of each year. A unique feature of this system is to identify inactive entities requesting extensions (forfeited, merged or dissolved) to ensure filers know the status of the business prior to filing its report. The website also provides a list of entities that have failed to file an earlier year's tax report and is potentially subject to the loss of its authority to conduct business in the State.

Businesses which sell goods or merchandise within Maryland must obtain a trader's license from the Clerk of the Circuit Court in the county where the business is located. The twenty-four Clerks' Offices rely on this unit to provide data necessary to complete the business license process. The fee for the license is based on the value of the inventory reported on the personal property report filed by the business.

Franchise Taxes and Public Utility Valuation:

Utility companies are subject to two separate types of taxes administered by the Department. The first levy is a "franchise tax" applicable to gas, electric, and telephone companies that is calculated like a gross receipts tax. The second type of levy is a property tax assessment for the operating real and personal property of electric companies, interstate natural gas and oil pipelines, railroads, telecommunication companies, and water companies.

The franchise tax section processed 299 returns in fiscal year 2013 and collected approximately \$123 million in revenue for the State General Fund. In comparison, there were 296 returns processed in fiscal year 2012, which generated \$127 million State General Fund revenue. This section also administers the Maryland Mined Coal Tax Act.

The utility and railroad valuation section of the Department assessed the operating properties of utilities and railroads for 330 business entities in fiscal year 2013. There were 352 entities in fiscal year 2012. The utility section must allocate or apportion the Maryland base of the operating unit since many of these companies operate on an interstate basis. There is a further allocation according to specific property locations between the individual subdivisions and municipalities within the State. Local governments received approximately \$252 million in property taxes in fiscal year 2013 from these utility and railroad property assessments made by the Department. The revenue generated for fiscal year 2012 was \$242.95 million.

Homeowners' Tax Credit Program:

The Homeowners' Tax Credit Program provides a "safety net" for assisting homeowners whose property tax bills are disproportionately higher than a fixed percentage of the gross household income. The program uses a graduated formula written into the law that establishes a "tax limit" for each income amount. A credit is granted whenever the amount of eligible taxes paid exceeds the tax limit for that income level.

The maximum amount of assessment eligible for credit consideration is the first \$300,000 of assessment. The homeowner's gross household income cannot exceed \$60,000. Any amount of the separate Homestead Tax Credit is deducted from the calculation of taxes eligible for the Homeowners' Credit.

Each year, the Department mails a new Homeowners' Tax Credit application to every homeowner who applied in the previous year. Everyone who submits a properly completed application by May 1, of the year is guaranteed to receive any Homeowners' Tax Credit due as a direct deduction from the July 1, property tax bill. Applicants who file after that date will later receive a revised tax bill or a refund check from the county government where the property is located.

The State of Maryland reimburses Baltimore City and the twenty-three county governments for each dollar of Homeowners' Tax Credit deducted from the property owner's tax bill on the residential dwelling. Local governments receive the Homeowners' Tax Credit reimbursement on a monthly basis from the State taxes collected.

When applying for the credit, a homeowner submits a copy of his or her federal income tax return and a copy of the Social Security SSA-1099 Benefit Statement if those benefits are received by the homeowner. Eighty percent of the eligible recipients of this credit are age 60 or older. Table XI compares the number of Homeowners' Tax Credits granted within each subdivision in fiscal years 2013 and 2012, respectively.

Homestead Tax Credit:

The General Assembly enacted legislation in the 2007 Session requiring homeowners currently receiving the Homestead Tax Credit or new homeowners purchasing their homes to submit a one-time application to verify that the property owner is actually using the dwelling as his or her one principal residence. The Homestead Tax Credit limits the amount of assessment increase on which a homeowner actually pays property taxes, and this credit can grow substantially through the years of home ownership. The county governments had supported the change in the law because of their concern that some property owners were improperly receiving the credit on properties being rented or on second homes.

The Department verifies eligibility for the Homestead Tax Credit by checking the federal income tax database, the Motor Vehicle Administration database, and the voter registration records for a match on the property receiving the Homestead Tax Credit. The Department had included the Homestead application form for new filers in the new Assessment Notices mailed to one-third of the property owners each year up until the original filing deadline of December 31, 2012. The application forms can be submitted electronically via the Department's encrypted website.

The original deadline for submitting a Homestead application is December 31, 2012. In calendar year 2012, the Department received 257,223 Homestead applications.

Renters' Tax Credit Program:

The Maryland General Assembly created the Renters' Tax Credit Program based on the proposition that renters indirectly pay property taxes in their monthly rent, and therefore, should receive a tax credit if they qualify based on the gross household income. There is a provision in the Renters' Credit law stating that 15% of the yearly rent equals the assumed amount of property taxes for that year. Like the Homeowners' Tax Credit Program, this program uses a graduated formula comparing the amount of "assumed property taxes" to a "tax limit" for the specific amount of income.

This program is available to renters age 60 or older, the 100% disabled and under age 60 renters with at least one dependent child. The majority of recipients of this credit are retirees age 60 or older. It is significant to note that 20% of the total number of Renters' Tax Credits are 100 disabled persons.

The eligible renter applies on a standard application form provided by the Department, where the agency verifies the amount of income and rent reported. The Department then authorizes the Comptroller's Office to issue a direct check payment to the eligible renter. The Renters' Tax Credit checks are issued on a monthly basis.

There is an itemization in Table XII for the 2012 Renters' Tax Credit application year as to the number of applications received, the number of credits issued, the total disbursement of funds for the credit, and the average amount of credit received by each eligible applicant.

Exempt Property:

The Maryland General Assembly has enacted a strict standard for granting real property tax exemptions because these properties place a demand on local governments for services and because the cumulative effect of exemptions constitutes a serious erosion of the local government tax base. These statutes require a stricter showing of "actually" serving the enumerated exempt purposes and not merely a showing of "nonprofit" status required to receive a federal 501(c) (3) designation.

The Department reviews all applications for a real or personal property tax exemption. Exemptions are granted to eligible charitable, educational, religious, or other specifically named organizations or individuals in the statute. In considering the application for exemption, the Department reviews the financial records, the entity formation documents, and the specific use of the particular property by the applicant organization or person. The Department also processes the property tax exemption applications for 100% permanently disabled veterans and their surviving spouses.

Table XIII provides a summary of the total amount of assessable base in each subdivision exempted from State, County, and Municipal property taxes. This table lists the information by type of owner of the property. As one would expect, the local governments own the largest total amount of exempt property. The next largest governmental owner in the State of Maryland is the federal government. The State of Maryland owns the smallest amount of government owned property.

In terms of privately held exempt property, the religious organizations own the largest amount of exempt property. Charitable organizations comprise the next largest group of privately owned exempt property. Educational organizations are third in the order of ownership of exempt property. Finally, the category on Table XIII called "individually owned" property includes disabled veterans/surviving spouses, blind persons, and foreign embassies.

Enterprise Zone and Other Business Property Tax Credits:

Recent studies and surveys over the past few years involving business owners indicate that the Enterprise Zone Tax Credit is the most valued tax incentive for a business to locate or expand in the State.

The Department's role in the administration of the Enterprise Zone tax incentives is to process the significant property tax credit granted to an eligible business. This credit equals 80% of the property taxes on the increased assessment on the new construction for the first five tax years and from 70% to 30% of the increased assessment over the next five years. A business located in a "focus area" within an Enterprise Zone can receive a tax credit on newly acquired personal property by the business.

The central administration of the Department and the local Supervisors of Assessments in the counties work closely with the local economic development officials in explaining the provisions and the calculations of these credits to businesses bringing jobs and capital investment to Maryland. For each year's tax billing, the local Supervisor of Assessments certifies to the County Government Finance Officer or Treasurer the amount of assessment eligible for that year's amount of Enterprise Zone Credit. These certifications are made each year for the ten year life of the credit. Finally, the central administration of the Department directs its accounting section to issue payment to the local governments for the State's one-half share reimbursement of the taxes forgiven to the eligible business in the form of the Enterprise Zone Credit. Table XIV provides a listing of the State's one-half reimbursements to local governments of the property tax credits for the Enterprise Zones.

The Department also performs assessment related functions for State agencies and local governments in the administration of other business related property tax credits such as the Business that Creates New Jobs Tax Credit, the Brownfields Credit, the Arts and Entertainment Tax Credit, and the BRAC Zone Tax Credit Payment.

OFFICE OF INFORMATION TECHNOLOGY

The Office of Information Technology (OIT) provides the data, information and technology support services for the Department, and assists county/local government IT departments and finance offices. OIT supports the Department's Wide Area Network that connects over 700 personal computers, 50 network servers linking all of the 24 local assessment offices to the Baltimore Preston Street Office Complex Headquarters (HQ) and the State's Annapolis Data Center via Network Maryland. OIT also provides technical support for the following SDAT automated applications: Real Property Data System (ADS), Homeowners' and Renters' Tax Credits, Residential and Commercial Assessment Administration and Valuation System (AAVS), Maryland Business Entity System (MBES), client based Budgeting, Personnel, Web and Imaging as well as office automation.

OIT Accomplishments:

The following IT related accomplishments were realized during calendar years 2012 and 2013:

- > SDAT created a Face book account which has approximately 200 views a month.
- > ISP connection was increased from 5 Mbps to 15 Mbps.
- ➤ SWGI circuit speed increased from 5 Mbps to 100 Mbps.
- Completed the conversion of Verizon FRASI Circuits to Network Maryland's Ethernet.
- ➤ Replaced approximately 450 computer monitors.
- ➤ Implemented phase one of the Governor's initiative for Internet based "one stop" business formation and licensing in the State of Maryland in partnership with vendor, NIC.
- > Continued with development of Homestead application entry processes (scanned applications), verification and audits.
- Replaced and consolidated all AAVS hardware.
- > Updated AAVS software to the latest version.

Internet Services:

The Department offers Internet access to information and services 24 hours a day, seven days a week. With our online services we have been reaching a larger field of users throughout the United States and the world.

The following online services are offered through the web site:

- > Searchable Real Property data including:
 - •Current property assessments
 - Ownership information
 - Recent sales/transfer data
 - •Tax maps
- > Filing of Homestead Tax Credit eligibility applications;
- Filing of requests for real property assessment hearing appeals;
- > Searchable database of Business Entity information including:
 - Corporate Charter filings
 - •Business personal property assessments
 - •Uniform Commercial Code (UCC) filings
 - Electronic images of UCC and Corporate Charter documents and filings
 - •Electronic images of Rate Stabilization filings
- Purchasing of Certificates of Status;
- Filing of Personal Property return extension requests; and
- > Potential Domestic Forfeitures searchable list.

We also offer a variety of forms, publications, and other valuable information. These services and information available are of great value to property owners, banks, lenders, appraisers, real estate professionals, businesses, and attorneys. The Department's web site averages 473,265 hits daily (over 14,430,000 monthly).

Internet Web Hosting and Web Advertising Initiative:

At the end of 2012, the Department had re-negotiated its Internet web hosting and advertising agreement with the Office of IT Services (OITS) of Towson University. This agreement provides for the 24 hour, 7 days per week web hosting and application support of the DAT web site by OITS. It also provides for the ability of businesses active in Maryland to advertise on the DAT web site based on an established fee structure. While providing this valuable service to advertisers, the agreement with OITS also provides for part of the proceeds generated from the sale of advertising space to be used to maintain and support the DAT web site. The gross advertising sales from this program for CY 2013 were \$22,200. In comparison for calendar year 2012, gross advertising sales were \$35,050.

EGov UCC/Charter Document Imaging:

The Department continues to provide web access to the document images of UCC Form 1 filings and Corporate Charter filings. This on-line service helps to free up DAT staff who were previously assigned to assist "walk in" customers and service company personnel who came in to the office for this information. Customers continue to appreciate the ability to view the documents in a matter of seconds from the convenience of their home or office.

In addition to the digital imaging of UCC and Corporate Charter filings, the Department also scans various other documents including Ground Rent Registration filings for display on our website. Unincorporated personal property returns are also scanned for retrieval by our Personal Property staff; SDAT maintains images of these documents dating back to 2001. The Department has begun an initiative to scan the Personal Property Form 1 filings which were determined to have "no assessment". This initiative substantially increased the number of images created for the period over the previous fiscal year. Digital images of Homestead Tax Credit applications are also created and maintained on a secure server and are available to SDAT Homestead staff. Both of these initiatives help free up valuable storage space.

The total number of pages imaged during FY 2013 was approximately 1,494,300 compared to approximately 765,000 in FY 2012.

Certificate of Status:

The Certificates of Status certifies that an entity is in "good standing" with the Department and that all documents and fees required by law to be submitted have been properly received and that the entity is not delinquent in any tax payments. During CY2012 over 32,908 certificates issued were processed using the Internet generating over \$658,160 in revenue. During CY 2013 the number of Internet filings increased to 35,286 which generated \$705,720. The number of Internet requested COS documents and the amount of revenue from the associated fees is expected to continue to increase over the next several years.

<u>Personal Property Returns – Filing Extensions:</u>

The Department provides the capability for customers to file for personal property tax return extensions using the Internet. During the first year of this service (FY 2002), the Department received over 17,000 extension requests via the Internet. Each year, approximately 147,000 extensions are filed using the internet or 99.8% of the total extensions filed.

EGov Real Property Assessment Appeals:

This service provides real property owners the ability to request assessment appeal hearings via the web. Prior to this service becoming available, property owners could only file an appeal of their assessment by mailing a form to the respective county assessment office. The total number of online appeal submissions filed over the Internet during CY 2012 was 4,218 compared to approximately 4,009 for CY 2013.

Homestead Tax Credit Applications:

Homestead Tax Credit applications filed over the Internet for CY 2012 was 107,692 compared to 187,449 in CY 2013.

Full year column includes new construction added for the full year (July 1). New construction is property added for partial year levy (October 1, January 1, and April 1).

II

>Cecil County full year and business personal property columns include the value of the Rock Springs Non-Utility Generator.

SGarrett County is not levying a tax against business personal property. The figures in that column are for personal property of a non-utility generator used to generate electricity which is a separate class of property. These figures do not include adjustments necessary to calculate State grants to local governments or any tax credits. The above Business Personal Property figures for July 2012 must be adjusted before being used for state aid purposes by substituting the following figures in (\$000): Allegany County \$185,760, Wicomico County \$304,683 and Worcester County \$192,263.

This table shows the taxable assessable base and ratios of real property used for different purposes. Ratios shown are median ratios of arms-length sales of properties in Group 3 that were sold between July 1, 2011 and June 30, 2012, compared with the Department's January 1, 2012, assessed value. In jurisdictions with fewer than 10 commercial sales, the statewide ratio is used. A ratio of 100% is used for property not assessed on market value.

SPECIAL NOTES:

- A) Farm implements owned or leased by a farmer are 100% exempt in all counties.
- B) Livestock of farmers is 100% exempt in all counties.

This chart was prepared by the Department of Assessments and Taxation. The exemption information contained herein is used by the Department in making personal property assessments of all legal entities and unincorporated businesses. Every effort was made to ensure the accuracy of the information at the time of publication. However, it should be noted that the exemptions granted by counties and municipalities may change from year to year.
